CHAPTER 1

THE LOCKED STYLE BLOCK SYSTEM

The foundation of every prompt in this collection. Learn how the Style Block works and why it must never be altered.

Every prompt in the Dark Fantasy Master Collection is built around a single, locked style block. This block is the DNA of the Grimmhain visual language — it encodes the lighting philosophy, color theory, atmosphere, and technical parameters that produce the signature look.

The Style Block goes at the **end of every prompt**, after your subject and scene description. Think of it as a cinematic lens filter: your subject changes, the lens stays the same.

THE LOCKED STYLE BLOCK

```
dark fantasy oil painting, chiaroscuro lighting, one dominant accent light,  
deep atmospheric shadows, muted earth tones with one saturated color accent,  
torchlit medieval village at night in background, painterly brushwork,  
realistic human anatomy, cinematic depth of field, no text, no UI, no frames,  
no borders, no watermarks, no logos  
--ar 2:3 --v 6.1 --style raw --q 2
```

ELEMENT BREAKDOWN

DARK FANTASY OIL PAINTING

Sets the genre and medium. Midjourney treats this as both a subject-matter cue and a stylistic cue — oil painting triggers impasto textures, visible brushwork, and painterly rendering over photorealism.

MUTED EARTH TONES + ONE SATURATED ACCENT

The color theory core of the style. Desaturated browns, ochres, and blacks as the base; one single saturated color (crimson, violet, ice blue) creates the emotional focal point.

CHIAROSCURO LIGHTING

Borrowed from Renaissance masters (Caravaggio, Rembrandt). Strong contrast between light and shadow. Creates dramatic, theatrical depth that makes flat compositions feel three-dimensional.

TORCHLIT MEDIEVAL VILLAGE AT NIGHT

Provides environmental context and atmospheric depth. The background is never empty — it grounds the subject in a lived-in world with warm torch-glow fighting the darkness.

ONE DOMINANT ACCENT LIGHT

Prevents the muddy, multi-source lighting that plagues AI art. Forces a single hero light — torch, moon, magical glow — that defines the entire mood of the image.

--STYLE RAW --Q2

`raw` reduces Midjourney's beautification tendency, preserving grit and texture. `q 2` maximises detail passes for professional output quality.

FACTION ACCENT LIGHTS

Swap the accent light to telegraph allegiance, power type, or danger level:

FACTION COLOR REFERENCE

Crimson glow — blood magic, berserkers, demon-touched

Ice blue light — undead, necromancers, cursed artifacts

Amber torchlight — mortal heroes, tavern scenes, warmth

Violet arcane glow — wizards, eldritch power, prophecy

Sickly green — poison, corruption, plague cults

Cold moonlight — hunters, rangers, silver magic

Golden divine — paladins, clerics, holy relics

Deep ember — dragonfire, forge magic, war priests

CHAPTER 11

CHARACTER PORTRAITS

12 complete character portrait prompts with tips and variations. Preview shows 2 of 12 — full collection unlocks all chapters.

1 THE FALLEN PALADIN

A fallen paladin in shattered obsidian armor, hollow silver eyes glowing faintly beneath a cracked visor, one gauntleted fist clutching a corrupted holy sword with crimson runes, expression of anguished resolve, rain-soaked cobblestones underfoot, dark fantasy oil painting, chiaroscuro lighting, one dominant accent light, deep atmospheric shadows, muted earth tones with one saturated color accent, torchlit medieval village at night in background, painterly brushwork, realistic human anatomy, cinematic depth of field, no text, no UI, no frames, no borders, no watermarks, no logos --ar 2:3 --v 6.1 --style raw --q 2

TIP

The "anguished resolve" expression is the emotional anchor. Replace with "cold fury" or "weary resignation" to dramatically change the narrative feeling without touching anything else.

2 THE PLAGUE DOCTOR

A plague doctor in worn leather plague mask and long waxed coat, amber glass eye lenses glowing dimly, holding a carved bone staff hung with dried herbs and iron charms, standing in a narrow plague-era alley, sickly green lamp light from above, dark fantasy oil painting, chiaroscuro lighting, one dominant accent light, deep atmospheric shadows, muted earth tones with one saturated color accent, torchlit medieval village at night in background, painterly brushwork, realistic human anatomy, cinematic depth of field, no text, no UI, no frames, no borders, no watermarks, no logos --ar 2:3 --v 6.1 --style raw --q 2

PREVIEW ENDS HERE

The full collection contains 10 more Character Portrait prompts, plus Creatures & Monsters, Scene Compositions, Lighting Masterclass, Atmosphere & Mood, Mistakes & Fixes, Advanced Techniques, and a complete Parameter Reference. 60 prompts total across 9 chapters.
