## CHAPTER 1

## THE POSE LIBRARY

8 pose building blocks. Each block is a modular phrase that slots into any portrait prompt. Combine with expression and clothing blocks for complete characters.

These are not complete prompts — they are **modular pose fragments** you insert into your subject description. The Style Block always follows at the end.

## HOW TO USE POSE BLOCKS

## STRUCTURE

[Subject] + [Pose Block] + [Clothing/Armor Block] + [Expression Block] + Style Block

Example: "A veteran soldier [standing in parade rest, weight on left leg, right hand resting on sword pommel] in [worn plate armor with campaign badges] with [jaw set, a thousand-yard stare] ... + Style Block"

## P1 PARADE REST

Standing at ease, weight slightly on left foot, right hand resting loosely on weapon pommel, left hand clasped behind back, chin level

standing in relaxed attention, weight on left leg, right hand resting on sword pommel, left hand behind back

## P5 THE WARCRY

Both arms raised overhead, one with weapon aloft, body fully extended, head thrown back, maximum kinetic energy, the apex of battle fury

both arms raised overhead, weapon raised in warcry, head thrown back, full-body extension, frozen at the apex of battle fury

## P2 COMBAT READY

Low fighting stance, feet shoulder-width, knees slightly bent, weapon raised to guard position, body turned to minimize profile

in low combat stance, feet planted wide, weapon raised to guard position, body half-turned, eyes locked on threat

## P6 THE LEAN

Leaning against wall or pillar, arms crossed or one hand braced, weight all on one side, casual authority or exhausted rest

leaning against a stone wall, arms loosely crossed, one shoulder bearing the weight, studied nonchalance or deep exhaustion

## P3 THE SEATED AUTHORITY

Seated on throne or high-backed chair, one arm on armrest, one hand raised with index finger extended in command, slight forward lean

seated on a high-backed throne, one hand on armrest, the other raised with pointing finger, leaning slightly forward in command

## P7 MID-CAST

Both hands extended toward a focal point, fingers spread or forming specific gesture, energy visibly flowing from hands, body braced

both hands extended and splayed toward a summoning focal point, body braced against the energy flowing from the fingertips

**P4** THE SUPPLICATION

On one knee, head slightly bowed, one hand flat on ground, one hand extended upward in offering or plea, vulnerability in every line

kneeling on one knee, head bowed, one hand flat on stone, one hand raised in offering, expression of desperate supplication

**P8** THE VIGIL

Standing with back to viewer, looking into distance or darkness, cloak or coat moving slightly in wind, solitary watchfulness

standing with back to viewer, gazing into the dark distance, cloak shifting in a cold wind, solitary and watchful

## CHAPTER 11

## FACIAL EXPRESSION LIBRARY

10 expression building blocks. Preview shows 2 of 10 — full collection unlocks all chapters and 15 complete prompts.

## EXPRESSION LAYERING

The most powerful expressions are **contradictory**. A smile that doesn't reach the eyes. Grief behind a composed facade. Combine two expression fragments to create psychological depth: *"jaw set with determination, but the eyes betraying exhaustion and doubt"*

## E1 COLD FURY

The controlled rage of someone who has mastered their anger as a weapon

jaw set hard, eyes flat and cold, the controlled stillness of fury held in check, muscles tight at the temple

## E2 WEARY RESOLVE

Exhausted but unbroken. The look of someone who will see this through regardless of the cost

deep fatigue in every line of the face but the eyes still burning with resolve, shoulders carrying invisible weight

## PREVIEW ENDS HERE

The full collection contains 8 more expression blocks (E3–E10), 8 Clothing & Armor reference blocks, and 15 complete portrait prompts — from The Reluctant Hero to The Apprentice. 40 building blocks total.
